

Dear Editor-in-Chief, Jurnal Riset Akuakultur

We wish to submit an original research article entitled “Analisis Pengaruh Penambahan Serbuk Kunyit dan Temulawak Pada Media Kultur Terhadap Peningkatan Kualitas Cacing Sutera (*Tubifex* sp.)” for publication consideration in the Jurnal Riset Akuakultur.

We confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere.

In this paper, we used silkworms as sample animals in the study conducted. This paper discusses the effect of adding turmeric and temulawak powder mixed in culture media during silkworm rearing.

Therefore, we believe this manuscript fits the focus and scope of your journal.
